

The Iran Data Portal is delighted to announce the following recent additions:

- A. The 2016 parliamentary election
  - A list of all electoral districts, including the number of members of parliament for each district (district magnitude)
  - Results of the first round of the 2016 parliamentary election that contain
    - the number of votes in each electoral district
    - the number of votes and percentage of votes received by each winning candidate, and
    - names of the candidates who should run in the second round
  - The number of votes received by all candidates for selected provinces such as Tehran, East and West Azerbaijan. More provinces will be added gradually
- B. 5th Assembly of Experts elections
  - Results of the 5th Assembly of Experts elections that contain the number of votes in each province, the list of winning candidates, and the number of votes received by each
  - List of candidates allowed to run, published by the Ministry of Interior
- C. Urban and Rural Population: 1976–2011
  - The urban and rural population of each province according to the last five censuses held (1976, 1986, 1996, 2006, and 2011)
- D. The 2016/2017 Budget Bill
  - The Budget Bill of 1395 (2016/2017) and its four appendices have been added to the section on Annual Budgets. The Budget Law of 1395 will be added once approved by Parliament
- E. Iran at a Glance
  - The section “Iran at a Glance” has been updated according to the most recent data available. It contains data on population, education, economy, energy and environment, health, labor, social affairs, and development. The most recent data available on the population growth rate, economic participation rate literacy rate, and internet penetration rate for each province can also be found in this section
- F. Ethnic Minorities
  - The number of non-Persian speaking population by age and province according to the 1986 census. 1986 the last time such numbers were published in the official census results
- G. Public Opinion Studies
  - The Center for International and Security Studies at Maryland (CISSM) has conducted a series of public opinion studies in Iran in collaboration with The University of Tehran Center for Public Opinion Research and iranpoll.com. A link to these studies has been put on the IDP
- H. Members of the Assembly of Experts
  - A newly posted dataset, prepared by Homayoon Fotros, an independent researcher in Iran, features the list of the members of the Assembly of Experts by age and province from the first Assembly to the fourth
