15 Welfare and Social Security
Introduction

Welfare and social security activities are carried out as support (non-insurance) and insurance services by several government and non-government organizations and centres. However, due to inaccessibility of data on non-government organizations, this chapter presents only statistical information on services rendered by major government organizations, excluding services rendered by non-government centres supervised by the State Welfare Organization.

It should be mentioned that since the year 1391, the name of the Medical Services Insurance Organization has renamed Iran Health Insurance organization.

A. Support services (non-insurance): It refers to social work, consultative and other social and rehabilitation services provided to satisfy essential needs of low-income groups and improve life conditions of the socially damaged population and families of martyrs and Janbazan (the war handicapped). Active organizations concerned are as follows:

1. State Welfare Organization: Prior to the year 1359, a variety of organizations were responsible for providing relevant services over the country. In the year 1359, all the concerned organizations combined to make the new state welfare organization. The data on welfare activities, prepared by the related departments, have been presented in Iran Statistical Yearbook since the year 1345.

2. Emam Khomeini Relief Committee: This Committee was established in the year 1357 to deal and help with the affairs of the socially-deprived groups. Since the year 1361, statistics on the Committee’s activities have been collected and released.

3. Martyr and Devotees’ Affairs Foundation: In the year 1383, the Islamic Revolution Martyr’s Foundation and Mostazafan and Janbazan Foundation merged to form Martyr and Devotees’ Affairs Foundation. The two Foundations were established in the years 1358 and 1357 respectively to deal with the affairs of the martyrs’ and Janbazans’ households. Data on activities of these foundations have been available since the years 1370 and 1373 respectively.

4. Red Crescent Society of the I. R. of Iran: The organization with the name of the Iranian Red Lion and Sun Society was established in the year 1301 and renamed Red Crescent Society of the I. R. of Iran since the year 1360. The statistics on its activities have been collected and released in the statistical yearbook since the year 1345.

B. Insurance services: These services which are based on the contributions from the insured person, employers and the government, are provided in different forms, including medical, retirement, disability, unemployment, work-connected accidents, death and prenatal insurances as well as family allowance. Organizations active in this area are as follows:

1. Social Security Organization: In the year 1309, workers were insured for the first time against work-connected accidents. By establishing the Social Security Organization in the year 1354, the number of insured groups and types of insurances rose increasingly.

Data on this area have been compiled and included in the statistical yearbook since the year 1345.

2. Iran Health Insurance Organization

The Organization was established according to the General Medical Services Insurance Act approved in the year 1373. Related register data have been accessible since the year 1374. Prior to the establishment of the Organization, the "Medical Services Insurance Act for Government Employees" had been approved in the year 1351 and was enforced by the Ministry of Health in the year 1353.

3. State Retirement Organization

The Organization was established in the year 1301, but statistical data on retirees and pensioners covered by the "State Retirement Fund" were first produced in the year 1350. All the above-mentioned organizations produce statistical data in the form of register data.

Based on the results of the 1390 Population and Housing Census, new tables on disability status were added to this chapter of the yearbook.
